11th CII International Conference on Waste-to-Worth Technologies

*Accelerating Circular Economy Through Innovative
Waste-to-Worth Technologies*

26th November 2026; The Lalit, Delhi

Concept Note

Introduction

India's transition to a circular economy presents immense opportunities to transform growing waste streams into valuable resources through innovation, technology, and sustainable business models. As industries increasingly embrace resource efficiency and circularity, collaboration and knowledge sharing have become more important than ever.

To accelerate this transition, the Confederation of Indian Industry (CII) is organizing the 11th CII International Conference on Waste-to-Worth Technologies on 26 November 2026.

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society through advisory and consultative processes.

For 130 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. With its extensive network across the country and the world, CII serves as a reference point for Indian industry and the international business community.

In the journey of India's economic resurgence, CII facilitates the multifaceted contributions of the Indian Industry, charting a path towards a prosperous and sustainable future. With this backdrop, CII has identified "Accelerating Competitiveness: Globalisation, Inclusivity, Sustainability, Trust" as its theme for 2025-26, prioritising five key pillars. During the year, CII will align its initiatives to drive strategic action aimed at enhancing India's competitiveness by promoting global engagement, inclusive growth, sustainable practices, and a foundation of trust.
