

# ANNUAL REPORT 2024

WASTE TO WORTH TECHNOLOGIES

*Enable the nation's leadership in Waste to Worth Transformation*

## ABOUT MISSION

The Government of India has launched Mission LiFE (Lifestyle for Environment), emphasizing circularity in the economy and the principles of 'Reduce, Reuse, Recycle'. The Hon. Prime Minister has highlighted that circularity has been a part of Indian lifestyle for centuries. As a resource-intensive nation with a rapidly growing population, India has the potential to lead in the circular economy, driving sustainable growth and a more equitable society. This shift helps reduce waste, conserve resources, and address climate change, supporting India's NDC targets and UNSDGs. The recent G20 declaration underlines its importance, leading to the formation of the Resource Efficiency and Circular Economy Industry Coalition (RECEIC).

The Confederation of Indian Industry (CII) promotes sustainability through the 'Waste to Worth Movement', which focuses on waste management technologies and circular economy practices. This initiative aims to help businesses reduce their environmental impact and drive sustainability across industries. By fostering collaboration among industries, governments, and stakeholders, CII works to develop strategies that contribute to a more sustainable and resilient future.

## VISION AND KEY INITIATIVES

- Fostering a Sustainable Future through Effective Solid Waste Management in India
- India Needs a Thriving and Matured Waste-to-Wealth Ecosystem

				
<b>Policy Advocacy</b>	<b>Networking and Learning Platforms</b>	<b>Awards &amp; Recognition</b>	<b>Stakeholder Engagements</b>	<b>Pilot project</b>

- a. Policy Advocacy and Recommendations to Government.
- b. Networking and Learning Platforms through International Conference, Seminars and webinars on various aspects of waste management & recycling
- c. Awards & Recognition of the exemplary work of India industry in various categories of waste management
- d. Stakeholder Engagements Government, International Waste agencies, industry, academia, research institutes and media
- e. Pilot project (s) to demonstration of end-to-end (collection, segregation, transportation, processing, safe disposal) municipal solid waste management solutions for a few wards of an Indian city.

## NATIONAL COMMITTEE ON WASTE TO WORTH

The CII National Committee on Waste to Worth is an initiative by the Confederation of Indian Industry aimed at promoting sustainable waste management practices in India. The committee focuses on transforming waste into valuable resources, thereby contributing to environmental protection and economic growth. Five (05) sub-committees under this committee are constituted

towards addressing the specific challenges and recommendations related to MSW, E-waste, plastics, C&D wastes, industrial wastes etc. generated by Indian Industry.

**Mr Masood Mallick**  
Chair, CII National Committee on Waste to Worth 2024 and CEO, Re Sustainability Limited

**Mr Prashant Singh**  
Vice Chair, CII National Committee on Waste to Worth 2024 and CEO, Blue Planet Environmental Solutions

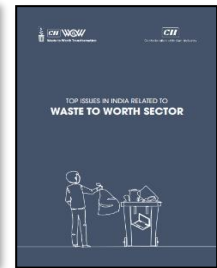

**Mr Aditya Handa**  
Vice-Chair, CII National Committee on Waste to Worth & Managing Director, Abellon Clean Energy

## HIGHLIGHTS OF W2W KEY INITIATIVES IN 2024

### Policy Advocacy:

Release of “National Circular Economy Framework (NCEF) Edition 2” and “White Paper on Top issues related to Waste to Worth Sector” which serve as a valuable resource for policymakers, industry leaders, researchers, and other stakeholders committed to advancing sustainable waste management practices in India

### CII 4R Awards 2024:

CII introduced the 4th “R” “Repair” into their 3R (Reduce-Reuse-Recycle) Awards to promote refurbishing in India. During conference, 4R awards were conferred to Twenty-one outstanding organizations for their excellent work “CII Compendium 2024” showcasing India’s leading companies transforming waste into worth.

### Webinars:

CII hosted the series of webinars that will focus on Waste Management Sector’s Role in Achieving India’s COP Commitments, Management through social inclusion, Efficient Waste Management for FMCG and many more.

### CII Annual Conference on Waste to Worth:

An annual conference is also held in November each year that brings together industry leaders, policymakers, and experts to discuss and showcase innovative waste management solutions and technologies

### CII Mission to Japan:

CII in collaboration with Industries, launched new initiatives to champion the circular economy in India. From August 5th to 9th, CII led a groundbreaking mission to Japan to explore technologies that enable Waste to Worth.

## GLIMPSES OF 9<sup>TH</sup> INTERNATIONAL CONFERENCE ON “WASTE TO WORTH TECHNOLOGIES”

	<p><b>CII Waste to Worth Mission to Japan</b></p> <p>Enhance the competitiveness for Indian and Japanese Industries with enhanced bilateral collaboration for WTW technologies</p>		<p><b>9<sup>th</sup> Int conference on Waste to Worth Technologies</b></p> <p>Hon. Minister for Env &amp; Climate Sh. Bhupender Yadav emphasized that the circular economy, centered on recycling, reducing waste, and reusing, is critical for a sustainable future.</p>
	<p><b>5th Edition of 4R Award (Reduce-Reuse-Recycle-Repair)</b></p> <p>Awards were conferred to Twenty-one (21) outstanding organizations for their excellent work to set a benchmark of excellence in waste management</p>		<p><b>Exhibition for W2W Technologies in Int Conference</b></p> <p>10+ Exhibitors showcase their innovative technologies in reducing and managing waste.</p>
	<p><b>Policy Advocacy</b></p> <p>Release of National Circular Economy Framework Vol 2- A valuable reference for stakeholders and policymakers, enabling them to promote circular economy practices that benefit both the economy and the environment</p>		<p><b>Policy Advocacy</b></p> <p>Release of White Paper on top issues in W2W sector- A valuable resource for policymakers, industry leaders, researchers, and other stakeholders committed to advancing sustainable waste management practices in India</p>
